Airline Safety:

Almost all of us have seen or heard over the past few months the importance of safety within the airline industry. We have a program available to us all "GSAP" Ground Safety Action Plan. This is a critical resource all members should be familiar with and utilize regularly. We need to ensure we all go home, and healthy, at the end of the day. Get involved and speak out on identified issues, if you see something, say something. Join your local safety action team, if you don't have one then start one, we can help.

Employee Assistance Program (EAP):

Have you, a family member or coworker experienced lifestyle, emotional or substance challenges these past few years? Our union has an Employee Assistance Program available to help you address your challenges in a healthy way. On the [district page](#) there is a monthly newsletter **Helping Hands** with insightful resources and information. If you need assistance, review the page for your representative or reach out to your committee / stewards to make contact.
