Airport Security:

Some members may be aware that Massport police and TSA have been implementing an aggressive security testing protocol. They are “secretly” piggybacking employees at portals. Members have had badges deactivated, held out of service and summons for a Massport hearing. A positive secure of the portal door is a must and only you may enter. Don’t let this happen to you, it could be an expensive lesson. Your company should be communicating this information to the membership.
